**Kansas City Police Athletic League and ZLB Plasma  
Work Together To Benefit Youth at Risk**

**April 14, 2008**

(Kansas City, Missouri) The Police Athletic League (PAL) and ZLB Plasma are working together to benefit the area's at-risk youth. ZLB Plasma has an ongoing relationship with PAL and recently contributed additional funds for their youth program.

PAL is a crime prevention program that provides a safe and supervised environment for youths, ages 8-18, to come and participate in a wide range of activities. According to Sergeant Rachelle L. Volker, PAL Supervisor, "The program offers youth the opportunity to interact with Kansas City, Missouri Police Officers and create positive relationships by participating in cultural, character development and sports programs. All programs and activities are designed to instill values of integrity, responsibility, self-motivation and teamwork. We are looking to improve the quality of life for at-risk youth and reduce juvenile crime and victimization throughout the entire city."

She added, "PAL appreciates the continued partnership with ZLB Plasma in helping to support our youth initiatives. Their support helps build relationships with Kansas City neighbors and communities. Their involvement has been an asset to the youth of Kansas City—which is the future for our city."

ZLB Plasma is one of the largest collectors of human plasma in the world, dedicated to the collection of plasma for life-saving therapies. ZLB Plasma operates 65 plasma collection centers across the United States and eight in Germany. ZLB Plasma has two locations in the Kansas City area.

For more information about how Kansas City area residents can make donations to the PAL program, please contact Sergeant Volker with the Kansas City Police Department at (816) 482-8289.

**About ZLB Plasma:**

ZLB Plasma, one of the largest collectors of human plasma in the world, is dedicated to the collection of plasma for life-saving therapies. ZLB Plasma operates plasma collection centers across the United States and Germany.

The Company is part of the CSL Behring group that is owned by CSL Limited, based in Australia. The group has a proud heritage dating back to the scientific efforts of Nobel Prize winner Emil von Behring and the renowned efforts of the Swiss Red Cross.

CSL was founded in Melbourne, Australia in 1916 to supply vaccines for the Australian Government. It became a private company listed on the Australian Stock Exchange in 1994. CSL has grown rapidly through strategic acquisitions and investment to become a successful global specialty biopharmaceutical company with over 7000 employees.
